Also known as "The Red Book", this authoritative manual from the creators of PostScript contains the complete description of every command and operation in the language, plus information on the recent Language Level 3 extensions. The CD-ROM contains the entire text in PDF.

Being a truly innovative company is more than the dreaming up of new products and services by external consultants and internal taskforces. Staying one step ahead of the competition requires you to embed innovation into your organizational culture. Innovation needs to be embodied in everything that gets done by everyone who works there. By changing your organizational culture to one that supports innovation, you will remove the barriers that stop you responding quickly and agilely to changing market conditions and opportunities for growth. Building a Culture of Innovation presents a practical framework that you can follow to design and embed a culture of innovation in your business. The six-step Innovation Culture Change Framework offers a structured process to make change stick, from assessing your organization's innovation-readiness to leading a managed change process that will foster innovation at each level. It includes case studies from international organizations which have shifted their focus to an innovation culture, including Prudential, Qinetiq, Octopus Investments, Cisco, Siemens, BrightMove Media, Waitrose and Feefo. Supported with downloadable resources, Building a Culture of Innovation is an essential read for business leaders and change implementation teams who want to place innovation at the heart of their business strategy.

In this comprehensive guide to pottery Kenneth Clark explains with the help of practical and informative text together with step-by-step illustrations and examples of finished work the various aspects of pottery. These include techniques of wedge making, pinching, coiling, slab building, throwing, joining, moulding and turning. In addition Clark gives full details on techniques of decoration, tools and equipment, kilns and firing, glazes, pigments and stains finishing with a full glossary. He also suggests ways in which potters can extend their techniques of production to meet the needs of changing markets and conditions, whilst trying to keep a balance between the work of the artist innovator and the production potter or ceramicist.

Living with a tigress is no joke! This is the true story of a Forest Conservator who risked his life and went beyond the call of duty for Khairi, a tigress he considered as his very own. The book offers the perfect balance of a biography and a scientific study. Khairi is so brilliantly brought to life in this book that you almost expect to hear her padding up behind your chair, purring loudly.

While providing many accounts of near-death experiences (NDEs) from men, women, and children of all ages and backgrounds, Lessons from the Light is much more than just an inspiring collection of NDEs. In Lessons near-death expert Kenneth Ring extracts the pure gold of the NDE and with a beautiful balance of sound research and human insight reveals the practical wisdom held within these experiences. As Stanley Krippner states, "In this remarkable book, Ring presents evidence that merely learning about the near-death experience has similar positive effects to those reported by people who actually have had near-death experiences. Kenneth Ring is one of the few authors whose

gifts include the capacity to transform their readers' lives."

The PostScript language has become the industry standard for printing high-quality graphics and text. This powerful language has the ability to describe efficiently the appearance of text, images, and graphics on a printed page. The PostScript language is currently incorporated into over 30 different products, including phototypesetters and high-speed laser printers from many well-known computer systems vendors.

With the help of this sniper's bible, the famed U.S. Army snipers killed 1,187 Vietcong in one five-month period and expended only 1.37 rounds per kill. This manual is also an excellent tool for honing hunting and target skills.

Excerpt from The Citizen Soldiers at North Point and Fort McHenry, September 12& 13, 1814: Resolves of the Citizens in Town Meeting, Particulars Relating to the Battle, Official Correspondence and Honorable Discharge of the Troops In the compilation of this volume, the publisher has been guided by no other wish than to present a correct and impartial statement of the various Divisions, Brigades, Regiments and Companies, with the rank of every citizen who had the honor of serving his country on the twelfth and thirteenth of September, 1814, at North Point and Fort McHenry. The extracts are copied from the original rolls on hie in the 3rd auditor's office of the War Department, and should errors occur in any of the companies, by the insertion of the names of individuals who were not present at the battle, or by the non-appearance of others, and by the varied rank of any of the officers, the error must be attributed to their own accounting officer, and be satisfied that it was the wish of no one to hold back the services of any, or to add any renown where it did not justly belong. The publisher also regrets his inability to obtain any thing like correct information respecting the Virginia and Baltimore County troops - as soon as received, it will be printed.
