Betty and Nancy Debenham were a pair of young adventurous lady motorcyclists who entered trials competitions on equal terms with men in the 1920's. Although they were serious motorcyclists they never let this get in the way of their tremendous sense of fun. Their spirit shines through in 'Motor Cycling for Women'. A practical and yet at times eccentric and quirky book from a bye-gone era that will make you smile.

This enjoyable, engagingly readable book provides a detailed roadmap for rebuilding and restoring unit-construction Triumph and BSA twins without spending a fortune. The book is organized just as you would a rebuilding project, starting with selecting a bike to work on and finishing with bringing all the pieces together to ride. It contains the practical, down-to-earth information you wish the factory manuals had, but don't. Brown passes along the tips, shortcuts, and money-saving advice he has acquired over a span of 20 years working with British motorcycles. Every aspect of refurbishing unit-construction British twins is covered: engine work, transmissions, frame repairs, shocks and forks, brakes, tanks, and those pesky Amal carbs and Lucas electrical systems. The book also helps you choose a bike to buy, including how to spot bogus serial numbers and avoid stolen goods. Whether you want to build a concours quality restoration or simply put a good-looking, reliable British bike on the road, you will find plenty of helpful information here.
