decision-makers. It has applications in all fields of social science, as well as in logic, systems science and computer science. Originally, it addressed zero-sum games, in which each participant's gains or losses are exactly balanced by those of the other participants.

Game theory - Wikipedia

Decisions are made by the player in a few pivotal moments that affect different story elements and tactics for infiltration or confrontation. Additionally, one decision is made at the end of the game that determines the conclusion. The decision-based elements aren't as extensive as other games, however, they are pivotal to the overall experience.
