2004 Honda Accord EX Coupe My 2004 Honda accord ex has 250,000 miles and is still going strong. The gas mileage is decent, and the only problems we have had are related to the age and mileage of the vehicle. At 245,000 miles we had to get the transmission rebuilt, but other than that one big expense, the car is running perfectly.

I am thinking of getting a 2004 Honda Accord Euro from the original owner. It has 93000 km's on it and I have seen the full service history in terms of the completed log book. It drives well and I could not find any issues with it. The owner has agreed to sell it at 12k. Is that too much for a 2004 accord euro with 93k on it?
