Our full review of the HTC One M8 covers this premium phone in-depth, from BoomSound and UltraPixel to Display and Processor.

In 2013, HTC launched the One, a device that defined their vision of an Android flagship rooted in strong design and build quality and relying on powerful hardware and a slimmed-down Sense interface. Two years later HTC continues to refine the formula with the HTC One M9, a smartphone that borrows heavily from the past in the hopes that it might push us more firmly into the future.

The HTC Corporation is a global technology firm that was founded in 1997. Since its inception, the entity has become renowned for its creation of tablets, smartphones and electronic gadgets. The latest in its line of gadgets come in the form of the HTC Vive VR Gear or HTC

Vive Pre, released to the public on April 5, 2016. The new virtual reality headset boasts what reviews dub 'room scale' technology and was designed to enable interactive motion and play by users. The Vive, which was created from a partnership between HTC and Valve Corporation, employs the use of manual controls to interact with the game. Users are able to enter an environment and communicate and interact with clarity and precision.

The third generation HTC One M9 was announced in March of 2015. The phone has numerous upgraded features compared to the HTC One M8 including individual notifications, better camera quality, battery saving options, high quality audio and a higher resolution screen. The phone is programmed so that it works to personalize its features to work with the habits and activities of individual users and offer helpful apps and information at the right time. It also has many useful default apps and a large selection of additional apps which add to the user's experience. An enhanced user interface, which runs on the latest version of Android, also makes the phone simpler to use than its predecessors. One of the top advantages of the phone over its competitors is the large storage capacity and it is a favorite among music lovers who want to listen to quality audio and be able to save more of their music on a mobile device.

The Samsung S6 is an Android smartphone that is manufactured by Samsung Electronics. It was the successor to the Samsung Galaxy S5 and was released in April of 2015. The S6 featured many similarities to the past S5 phone but it also featured some departures from design approaches and the integration of new technologies which made the phone robust and a leader in the smart phone space. The HTC One M9 is another great Android smartphone that is manufactured by HTC and was released in April 2015. This is a third generation smart phone that is intended to be the successor to the M8 that was released in 2014. The HTC One M9 is similar to its predecessor only in that the body is wider and somewhat thicker. They have also made it more advanced and ready to compete in the current smart phone space. This book is intended to look at the differences and compare the specifications of the Samsung Galaxy-S6 and the HTC One-M9.
