Use this helpful book to learn about the leadership tools to fuel success, grow your team, and become the visionary you were meant to be. True leadership isn't a matter of having a certain job or title. In fact, being chosen for a position is only the first of the five levels every effective leader achieves. To become more than "the boss" people follow only because they are required to, you have to master the ability to invest in people and inspire them. To grow further in your role, you must achieve results and build a team that produces. You need to help people to develop their skills to become leaders in their own right. And if you have the skill and dedication, you can reach the pinnacle of leadership—where experience will allow you to extend your influence beyond your immediate reach and time for the benefit of others. The 5 Levels of Leadership are: 1. Position—People follow because they have to. 2. Permission—People follow because they want to. 3. Production—People follow because of what you have done for the organization. 4. People Development—People follow because of what you have done for them personally. 5. Pinnacle—People follow because of who you are and what you represent. Through humor, in-depth insight, and examples, internationally recognized leadership expert John C. Maxwell describes each of these stages of leadership. He shows you how to master each level and rise up to the next to become a more influential, respected, and successful leader.

This brief paperback outlines a practical, contemporary model for making a difference as a leader in the Information Age -- one which goes well beyond the single, behavior-focused leadership style (Level One) typically associated with Industrial-Age organizations. Drawing on the work of a wide range of scholars and authors in the field of leadership and managing change, it integrates theory and practice to create the model and a set of related perspectives and concepts about how individuals can become better leaders not only in their own lives, but in their work group, and in their organizations by seeking out opportunities to influence people and their thinking (Level Two Leadership), and their values and basic assumptions about how the world operates (Level Three Leadership). Questions for Reflection throughout and an innovative Workbook section help readers explore their own values, assumptions, beliefs, and expectations about what it means to be an effective leader -- and suggest ways to grow and develop their leadership skills.
