**Leviathan and the Air Pump: Hobbes, Boyle, and the---**

Leviathan and the air pump is a masterful account of how scientific controversies are constructed and, ultimately, won or lost. Shapin and Schaffer use the well known air-pump experiments of the 1660's, wrought by Boyle, and the objections of Thomas Hobbes to the method by which the experiments were conducted, which were all but lost to the inevitable bias that a winners account creates.
