Connecting Research & Results As a master teacher, Santrock connects students to current research and real world application. His integrated, personalized learning program gives students the insight they need to study smarter and improve performance. Connect with Life-Span Development and connect with success! Informed and driven by research. At McGraw-Hill Education, we have spent thousands of hours with you and your students, working to understand the key needs and concerns you face in Human Development courses. The most common topics raised include managing the vast amount of content inherent to this course and ensuring the dependability of the assigned material--is it current and accurate? The result of this research is John Santrock's Life-Span Development. Life-Span Development ensures students complete and understand the assigned material in a number of ways: Santrock's hallmark Learning Goals pedagogy provides a comprehensive roadmap to the text material, clearly pointing out the core concepts fundamental to students' learning and performance. Our LearnSmart Advantage adaptive study tools increase students' efficiency in studying by identifying what they know, and more importantly what they don't know, providing immediate remediation for the areas in which they are struggling. At the same time, instructors have access to powerful visual reports allowing them to quickly see where students' strengths and weaknesses lie. Connect Lifespan takes your instruction and your students' learning experience to the next level without requiring hours of setup whether you are teaching face-to-face, online, or in a hybrid setting. The 15th edition continues with the connections theme to help students better understand the concepts among the different aspects of human development. This recurring theme of connections--Developmental Connections, Topical Connections, Connecting Development to Life, Connecting with Careers, and Connections through Research--ties together concepts from across chapters to reinforce the learning process and connects the material to students' everyday lives and future aspirations. Our Milestones of Development video series helps bring the course material to life, allowing students to witness development as it unfolds. And of course, all of the text material is informed by Life-Span Development's unique board of expert consultants--a who's who of developmental psychology--who make sure the material is as accurate and up-to-date as possible.

In this bestseller, Shelley Moore explores the changing landscape of inclusive education. Presented through real stories from her own classroom experience, this passionate and creative educator tackles such things as inclusion as a philosophy and practice, the difference between integration and inclusion, and how inclusion can work with a variety of students and abilities. Explorations of differentiation, the role of special education teachers and others, and universal design for learning all illustrate the evolving discussion on special education and teaching to all learners. This book will be of interest to all educators, from special ed teachers, educational assistants and resource teachers, to classroom teachers, administrators, and superintendents.

Understanding the Life Course provides a uniquely comprehensive guide to the entire life course from an interdisciplinary perspective. Combining important insights from sociology and psychology, the book presents the concept's theoretical underpinnings in an accessible style, supported by real-life examples. From birth and becoming a parent, to death and grieving for the loss of others, Lorraine Green explores all stages of the life course through key research studies and theories, in conjunction with issues of social inequality and critical examination of lay viewpoints. She highlights the many ways the life course can be interpreted, including themes of linearity and multidirectionality, continuity and discontinuity, and the interplay between nature and nurture. The second edition updates key data and includes additional material on topics such as new technologies, changing markers of transitions to adulthood, active ageing, resilience and neuropsychology. This comprehensive approach will continue to be essential reading for students on vocational programmes such as social work and nursing, and will provide thought-provoking insight into the wider contexts of the life course for students of psychology and sociology.
