Gunshot Wound to the Head - ePainAssist

A head injury is
any trauma to
the scalp,

Read Book On Wounds In The

skull, or brain.

The injury may
be only a minor
bump on the

skull or a
serious brain
injury. Head

injury can be
either closed or
open

(penetrating). A
closed head
injury means you
received a hard

Read Book On Wounds In The

blow to the head
from striking an
object, but the
object did not
break the skull.
