Paper Monster. October 19, 2008 by Jesse Ship. Still young, only 23, PaperMonster is finding his niche in the art world. A certain part of that comes thanks to a short term mentorship under the famed Parisian stencil artist, Blek Le Rat who taught him to take his stencil work to the next level and incorporate more dimensions and eye-popping colours than he ever imagined.

Paper Monsters deftly combines paper craft with advanced paper engineering so no nightmares with glue, tape or tools ever happen!

In Paper Monsters, Samuel Fallon charts the striking rise, at the turn to the seventeenth century, of a new species of textual being: the serial, semifictional persona. When Thomas Nashe introduced his charismatic alter ego Pierce Penilesse in a 1592 text, he described the figure as a "paper monster," not fashioned but "begotten" into something curiously like life. The next decade bore this description out, as Pierce took on a life of his own, inspiring other writers to insert him into their own works. And Pierce was hardly alone: such figures as the polemicist Martin Marprelate, the lovers Philisides and Astrophil, the shepherd-laureate Colin Clout, the prodigal wit Euphues, and, in an odd twist, the historical author Robert Greene all outgrew their fictional origins, moving from text to text and author to author, purporting to speak their own words, even surviving their creators' deaths, and installing themselves in the process as agents at large in the real world of writing, publication, and reception. In seeking to understand these "paper monsters" as a historically specific and rather short-lived phenomenon, Fallon looks to the rapid expansion of the London book trade in the years of their ascendancy. Personae were products of print, the medium that rendered them portable, free-floating figures. But they were also the central fictions of a burgeoning literary field: they embodied that field's negotiations between manuscript and print, and they forged a new form of public, textual selfhood. Sustained by the appropriative rewritings they inspired, personae came to seem like autonomous citizens of the literary public. Fallon argues that their status as collective fictions, passed among writers, publishers, and readers, positioned personae as the animating figures of what we have come to call "print culture."

Jacob Higgins's teenage rage rarely simmers below the surface for long. He despises his negligent mother and her alcoholic boyfriend, Refrigerator Man, and he's indifferent to school and his friends -- though a little less casual about girls and marijuana. His antics have landed him in a North Virginia detention center, where nihilism, freedom, and redemption all take on unexpected guises. In a voice filled with confusion, yearning, and sardonic humor, Jacob narrates his improbably sweet romance with Andrea, an inmate with whom he shares rare glances, melodramatic conversation, and waxy cookies at rigidly chaperoned "socials." But when David, a mysterious, conniving adolescent, handpicks him to assist in a plot to bring about the center's demise, Jacob has to weigh the frail new optimism of his relationship with Andrea against the allure of destruction, rebellion, and escape. In her pitch-perfect debut, Emma Rathbone adroitly captures the drama, both comic and deadly serious, of growing up.

A breakthrough paper-folding book for kids—paper airplanes meet Origami meets Pokemon. Papertoys, the Internet phenomenon that ' s hot among graphic designers and illustrators around the world, now comes to kids in the coolest new book. Created and curated by Brian Castleforte, a graphic designer and papertoy pioneer who rounded up 25 of the hottest papertoy designers from around the world (Indonesia, Japan, Australia, Italy, Croatia, Chile, even Jackson, Tennessee), Papertoy Monsters offers 50 fiendishly original die-cut designs that are ready to pop out, fold, and glue. The book interleaves card stock with paper stock for a unique craft package; the graphics are colorful and hip, combining the edginess of anime with the goofy fun of Uglydolls and other collectibles. Plus each character comes with its own back-story. And the results are delicious: meet Pharaoh Thoth Amon, who once ruled Egypt but is now a mummy who practices dark magic in his sarcophagus. Or Zumbie the Zombie, who loves nothing more than a nice plate of brains and yams. NotSoScary, a little monster so useless at frightening people that he has to wear a scary mask. Yucky Chuck, the lunchbox creature born in the deepest depths of your school bag. Plus Zeke, the monster under your bed, Nom Nom, eater of cities, and Grumpy Gramps, the hairy grandpa monster with his very own moustache collection.

A long hot summer changes shy Hannah Ruland's life when mysterious patterns appear on nearby fields and the enigmatic Toby arrives in town with a group of crop circle followers.
