The Essentials of  
Mathematical Communication  
Communication is an  
essential part of  
mathematics and mathematics  
education. It is a way of  
sharing ideas and clarifying  
understanding. Through  
communication, ideas become  
objects of reflection,  
refinement, discussion, and  
amendment.

Claude Elwood Shannon (April 30, 1916 – February 24, 2001) was an American mathematician, electrical engineer, and cryptographer known as "the father of information theory". Shannon is noted for having founded information theory with a landmark paper, "A Mathematical Theory of Communication", that he published in 1948.
