Dramatically inhabits the space where past and present intersect, seamlessly interweaving narratives from two different eras. The Shadow Catcher's twin narratives follow the life of photographer Edward S Curtis (1868-1952) and his wife Clara Phillips (about whom little is known, giving the author's creativity free rein); and "Marianne Wiggins", living in present-day California, who has written a book about Curtis that has drawn the interest of film-makers.

[Review of The Shadow Catcher by Marianne Wiggins](#)

The Shadow Catcher is Marianne Wiggins's eighth novel. Over a career that has spanned more than 30 years and included a Pulitzer Prize nomination for Evidence of Things Unseen (2003), the author has built a reputation as a stylist and a storyteller with an eye for distinctive, character-driven material. Her latest effort plays with the "traditional" novel in ways that make reviewers sweat.

As Marianne delves into the mystery of the imposter, she examines her parents' married life together, and the idea emerges that knowing and understanding another human being is problematic, and that understanding a parent outside of their prescribed role is impossible. Blending fact and fiction, The Shadow Catcher is a fine accomplishment. This is an intelligent novel loaded with social commentary that explores identity, parenthood, the exploitation of Native Americans, and the need we all ...
