The Sustainability Generation The Politics

The Sustainability Generation is beyond simply another green book in that it focuses on the poisonous influence of our acquisitive culture and its root cause -entitlement. Our culture of entitlement encourages the belief that instant gratification is our right; this in turn erodes our sense of duty toward anything outside of these immediate desires.

The Sustainability Generation The Politics Of Change And ...

This suggested a more complex figure of sustainability, which included the importance of the domain of 'politics'. More than that, sustainability implies responsible and proactive decision-making and innovation that minimizes negative impact and maintains a balance between ecological resilience, economic prosperity, political justice and cultural vibrancy to ensure a desirable planet for all species now and in the future.
