Follow the blueprint in this book to launch a library DIY community history digitization program—one that provides the access and fosters engagement with patrons to sustain the program over time. • Takes readers through establishing local history digitization projects at the community level from start to finish, providing guidance on how to set up, maintain, and sustain ongoing digitization projects • Describes how to train library users for digitization—instructions that are also applicable for including volunteers in digitization projects • Explains how creating a DIY history digitization project can provide a community benefit and serve as a form of outreach that also enriches a library's local history collection

A haunting and heart-wrenching story of two girls, two time periods, and the one event that changed their lives--and the world--forever.

The 2021 edition of The New York Times Bestselling Guide. PLAY BALL! The 26th edition of this industry-leading baseball annual contains all of the important statistics, player predictions and insider-level commentary that readers have come to expect, along with significant improvements to several statistics that were created by, and are exclusive to, Baseball Prospectus, and an expanded focus on international players and teams. Baseball Prospectus 2021 provides fantasy players and insiders alike with prescient PECOTA projections, which The New York Times called “the überforecast of every player’s performance.” With more than 50 Baseball Prospectus alumni currently working for major-league baseball teams, nearly every organization has sought the advice of current or former BP analysts, and readers of Baseball Prospectus 2021 will understand why!

CONSTRUCTION ACCOUNTING & FINANCIAL MANAGEMENT, 3/e helps construction professionals and construction management students master the principles of financial management, and adapt and apply them to the challenge of profitably managing construction companies. It integrates content that has traditionally been taught through separate accounting, finance, and engineering economics texts. Students learn how to account for a construction

company's financial resources; how to manage its costs, profits, and cash flows; how to evaluate different sources of funding a company's cash needs; and how to quantitatively analyze financial decisions. Readers gain hands-on experience through 220 example problems and over 390 practice problems, many of them based on situations actually encountered by the author. This edition adds more than 100 new discussion questions, and presents financial equations and accounting transactions more visually to support more intuitive learning.

Is your lack of cash holding you back from your real estate dreams? Discover the creative real estate financing techniques that savvy investors are using to do more deals, more often. No matter how much money you have in your checking account, there is always real estate you can't afford. Don't let the contents of your wallet define your future! This book provides numerous strategies for leveraging other people's money for amazing returns on your initial investment. Active real estate investor and co-host of The BiggerPockets Podcast, Brandon Turner, dives into multiple financing methods that professional investors use to tap into current real estate markets. Not only will you be able to navigate the world of creative real estate finance, but you'll get more mileage out of any real estate investment strategy. Financing deals just got easier—learn how to be a smart investor by using creativity, not cash! Inside, you'll discover:— The truth about no-money-down investing? Investing with little to no money down is possible, but it's not about a step-by-step strategy. It's about a mindset.— How to get started investing in real estate? Looking for your first deal, but you have no money or experience? Learn the best strategies for getting your feet wet without paying thousands!— Numerous strategies to mix and match? Creative investing requires a creative mind.— How to attract private money, lenders, and partners? There are millions of millionaires walking the streets. Discover the best way to attract them to you.— The ugly side of creative investing? Learn the downsides to all the strategies mentioned in this book, as well as tips for overcoming those problems.— Strategies for wholesaling, flipping, rentals, and more? Find success no matter what niche you plan to use to build your real estate empire.

Designed for teaching astrophysics to physics students at advanced undergraduate or beginning graduate level, this textbook also provides an overview of astrophysics for astrophysics graduate students, before they delve into more specialized volumes. Assuming background knowledge at the level of a physics major, the textbook develops astrophysics from the basics without requiring any previous study in astronomy or astrophysics. Physical concepts, mathematical derivations and observational data are combined in a balanced way to provide a unified treatment. Topics such as general relativity and plasma physics, which are not usually covered in physics courses but used extensively in astrophysics, are developed from first principles. While the emphasis is on developing the fundamentals thoroughly, recent important discoveries are highlighted at every stage.
