Brosol H30/31. The Brosol H30/31 is a direct replacement for the 28PCI, 28PICT and 28PICT/1 OEM (original equipment manufacturer) carburetors that Volkswagen's 36- and 40-hp, 1,200-cc (cubic centimeter) engines used from 1951 to 1965. Since the Brosol H30/31 is slightly larger than these carburetors, you'll also get a small increase in horsepower when you install it.

VW engines are notoriously under carbureted by nature of the original design. A stock VW carburetor is proportionally small in relation to VW engine size when compared to most (if not all) other car makes. Your first consideration should be to note how many cylinders each carburetor throat is "feeding".

Locate the throttle arm on the left side of the carburetor. It is controlled by the accelerator cable that runs to the accelerator pedal in the cabin. On the top of the throttle arm, facing to the rear of the car, is a screw called the Fast Idle Adjuster. This works with the choke to give a smooth idle on a cold engine.

"The Golf name is well known worldwide," said Steve Keyes, a VW spokesman. "More than 26 million Golfs have been sold, in a total of 120 countries." Besides the name change, the other interesting feature of the new version that will be sold in the United States is the option for a highly fuel-efficient 140-horsepower, 2-liter diesel engine.

"A rich history of a company whose cars, for better and worse, have touched millions of lives, a character study of a brilliant but deeply flawed leader, and a case study in how a corporate culture can turn toxic." —Bethany McLean, New York Times Book Review *Faster, Higher, Farther* chronicles a corporate scandal that rivals those at Enron and Lehman Brothers—one that will cost Volkswagen more than \$22 billion in fines and settlements. Through meticulous reporting, New York Times correspondent Jack Ewing documents why VW felt compelled to install "defeat devices" in diesel vehicles that unlawfully lowered CO2 levels during emissions testing, and how the fraud was committed, covered up, and finally detected. *Faster, Higher, Farther* is a briskly written account of unrivaled corporate greed. Updated with the latest information and a new afterword by the author.

Americans, who sacrificed everything, including their sons and daughters, in an effort to save the world from Germany and Japan during World War II, will forever be known as the Greatest Generation. In this historical novel by veteran Captain Bob Norris, Robert Elliot emerges as an iconic representative of the generation that helped the United States win the war and begin an unrivaled period of prosperity. Fleeing the environmental and economic devastation of the Dust Bowl; Elliot's family moves to the Alaskan frontier to carve out a new life as homesteaders. As a young man, he discovers his two loves: flying airplanes and his eventual bride, Dee. Everything changes for Elliot and for America, on Dec. 7, 1941, when the Japanese attacked Pearl Harbor. As a fighter pilot in the Army Air Corps, he engages the enemy; shooting down Japanese planes when his plane is shot down near Borneo, Elliot begins his greatest battle, the fight to survive captivity and return home to Dee. He only thought life in the Dust Bowl and Alaskan frontier were challenging. Being a prisoner of war and his escape is a trial unlike any other. An interesting and historically accurate account of life in the United States before and during WWII from the perspective of a kid growing up in the dust bowl to air combat in the Pacific. The young man then transitions to a fledgling airline business, while offering us a glimpse of what our parents endured in America when they were young. You feel like you were actually there during those earlier, difficult years! Well Done!

Lucsko offers a rich and heretofore untold account of the culture and technology of the high-performance automotive aftermarket in the United States, offering a fresh perspective on the history of the automobile in America.

This book tells the definitive international story of the Volkswagen Type 3. Simon Glen writes from first-hand experience, having owned seven Type 3s - five Variants, a 1500 Notchback and a 1500S Karmann-Ghia - which have been driven through Africa, Europe, Australia and New Zealand.
